

Community College of Aurora Campus

Hazing Transparency Report 2025

Community College of Aurora is committed to cultivating an inclusive and supportive environment where everyone feels recognized, valued and connected, enabling them to thrive. To learn more, visit [About the Community College of Aurora](#) or [Civil Rights & Title IX](#).

Under the new federal requirements established by the Stop Campuses Hazing Act, all colleges and universities are required to begin posting and maintaining Public Hazing Incident Transparency Report including each incident involving a student organization for which a finding of responsibility is issued relating to a hazing violation, including:

- The name of such student organization;
- A general description of the violation that resulted in a finding of responsibility, including:
 - whether the violation involved the abuse or illegal use of alcohol or drugs,
 - the findings of the institution and
 - any sanctions placed on the student organization by the institution, as applicable; and
- The dates on which:
 - The incident was alleged to have occurred
 - The investigation into the incident was initiated
 - The investigation ended with a finding that a hazing violation occurred and
 - The institution provided notice to the student organization that the incident resulted in a hazing violation.
- The Campus Hazing Transparency report cannot include personally identifiable information.

Further information regarding CCA's policies regarding hazing policies and procedures can be found in the [2025 Annual Security Report](#).

Between January 1, 2025 to present date, there have been zero incidents reported at Community College of Aurora on any of our campus locations in Aurora, Denver, or Centennial.
